Division Solicitation No. 601CT0000005854
Pre-RFP Questions & Answers (Q&A)
Q&A Posting Date: 3/8/2024

Ref #	Provider Question	TxDOT Answer
1.	<p>This question concerns the applicability of a firm's NAICS code if it doesn't match the description. For example, in the DBE NAICS CODES for Standard Work categories document, for 1.1.1 Policy Planning, 541320 is acceptable, however, the DBE firm with that NAICS code has the description of Landscape Architectural Services listed, not policy planning. Additionally, when you search NAICS code 541320, Landscape Architecture is the only thing that shows up.</p> <p>Will we still be able to count that firm for Policy Planning as long as they have the acceptable code of 541320 regardless of the description?</p>	<p>Yes. The NAICS Code title is not required to match the work category description. The NAICS Codes applicable for the contract will be identified in the Request for Proposal.</p>
